

What we do

We provide Governance, Risk and Compliance (GRC) competences and skills across your organisation and suppliers - Our main aim is to assist you in the process of translating regulatory requirements into clear, actionable competence needs. We define the roles, skills, and certification pathways required across your organisation.

As a PECB training partner, we deliver online and classroom-based certification training at competitive prices— in programs tailored to your context and regulatory demands.

We offer support to your employees throughout their flexible online learning or classroom journey to ensure fast progress and real understanding.

We work with executive management, boards, security leaders, and HR functions to translate regulatory and strategic requirements into measurable competence and up-skilling initiatives. We enable a good start or for you to catch up quickly with minimal disruption to your business operations.

Why Choose CERTIKON?

We combine regulatory insight, international certification expertise, and deep operational experience across governance, risk, compliance, technology regulation and continuing education, . Our approach is independent, pragmatic, and focused on building long-term capability as well as short-term compliance.

We are niche oriented on purpose and operate with great expertise in upskilling where it matters the most: translating regulatory requirements of NIS2, DORA,CRA, and AIA among others, into real, working capability across organisations. We speak the language of boards, regulators, and practitioners — and ensure alignment from strategy to execution.

Tue Jagtfelt, lead advisor, brings CISO-level operational experience, extensive certification expertise across PECB programmes, and top level advisory experience — offering a rare combination of technical depth, regulatory understanding, and strategic insight.
